# AI-512 Architectural Interface

## Increase Your Control

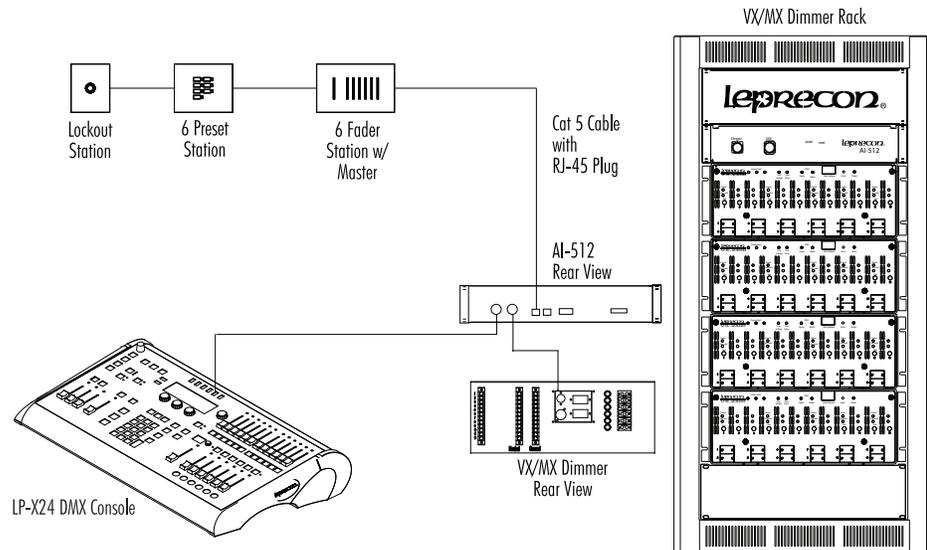

Whether rack mounted or wall mounted, the AI-512 interface provides you with all of the tools and flexibility needed to make your job a whole lot easier. Compatible with any DMX dimmer, users have the ability to snapshot up to 512 DMX channels to any button or fader on our Litescape wall stations. You can also map a specific fader on the console to mimic any button or fader station. Easily configured via a web browser, the AI-512 requires no special software and utilizes an Ethernet connection for quick programming via a laptop. With the new AI-512 from Leprecon both your house lights and stage lighting are all within your control.

## Architectural Interface Software

- Uses Web Browser for Scene Programming, No Special Software
- DMX Snapshots for Fast Programming
- Merges with Desk DMX Data
- Live and Blind Record Modes
- Real-Time Status Display for Setup & Configuration

## Typical System Setup

## System Capability

- Up to 8 Distinct Rooms
- Up to 12 Panels Per Room
- Playback Controlled by Faders or Buttons
- Console Faders Can be Mapped as Playbacks for Seamless Control
