

Take a look at our tree-mount dimmers. These economical dimmers can be put into service with the assurance that they will stay in service. Solid design and construction assure that they will practically live forever. Our expanded line of dimmers are built with the same rugged durability and reliability found in our touring dimmers. We use dual SCR's for unsurpassed reliability. Full magnetic circuit breakers protect electronic components in the event of overloads or short circuits...no fuses to replace. All our tree-mount dimmers offer quality line noise filtering that eliminates buzz and interference in audio equipment. Regardless of the console you have, we offer a tree-mount dimmer that will be a perfect partner for your system.
